An Indian Company with International Certifications

Supreme Industries has been awarded the prestigious TPM certificate. It is India's first and only plastic processing/furniture Company to be honoured with this certification.

Supreme[®]
People who know plastics best

An acknowledged leader of the Indian plastics industry, the Supreme Group processes nearly 3,50,000 tonnes of polymers every year – volumes that make it one of the largest polymer converters in the country.

The Supreme Group's turnover crossed ₹ 7400 crores in 2017, with that of the flagship Supreme Industries Limited, which crossed ₹ 5000 crores over the same period.

Incorporated in the year 1942, the Supreme Industries Limited is at the leading edge of the plastic processing industry today.

At the same time, it offers the most diversified portfolio of products in the plastics industry.

The Group's 25 state-of-the-art plants, at strategic locations countrywide, feature new generation technologies accessed from world leaders.

Complementing this powerful manufacturing network are strong in-house facilities for new product development, that have helped Supreme innovate several path-breaking products in India.

Cross Laminated, Multilayer and HMHD Films, SWR Plumbing Systems, Lacquer Finish & Painted Furniture, Low Density Cross-linked PE Foam, Injection Moulded Pallets, Composite LPG Cylinders, Underground Drainage Systems & Chambers are some of the products pioneered in the country by Supreme.

The focus of the Group now is increasingly on developing superior, specialized application-specific variants in each product category -- to give better value to the customer.

Today, Supreme products are used by satisfied customers not just in India, but in nations across five continents.
